

Memo

To: Surveillance File
From: Karen Chandler
Date: July 20, 2006
Subject: Lot behind 2804 E. Battlefield

This morning Marta Bryant of CASI called about one of the cleanouts behind the strip center where the office is located. When she came to work this morning, she said there was a really bad odor and water was all over the lot. I met her there after 10:00 a.m. and the water was gone. She said she talked to the people who work at the Signal Shoppe and they saw a large RV in the back of the center about 7:30 that morning. I took pictures and made a couple of notches in the cap of the cleanout lid to see if it is being unscrewed. I didn't see any other evidence (a lot of toilet paper, etc.) that sewage is being dumped. There are also some roof drains that drain to the lot behind the strip center. I told them to call me if this happens again and we will also check on this periodically.
